### Project: "Pupil Health & Well-Being"

The European Union has launched a project to improve the health and wellness habits of students due to the existence of many problems of obesity across Europe. This initiative is coordinated by the United Kingdom, having as partners Spain and Greece. In Spain the participating institutions are the University of Las Palmas, with St. Anthony Mary Claret (Las Palmas) and CEIP Marpequeña (in Telde) center.

School Meetings : Parents at School

The aim of this project is to create healthy and great emotional well-being students. These aspects will be addressed from E.F, Natural and Emocrea. ( Emotional Education)

In the first phase of the project consists in training teachers who are active in schools, the students of Educational Sciences (teachers and social workers) transfer these lessons to students, getting healthy and happy citizens.

The project has several phases, ending in 2017.
