ámbito escolar y un mecanismo articulador de esfuerzos y recursos multisectoriales, orientados al mejoramiento de las condiciones de salud y bienestar desde una perspectiva integral, ampliando así las oportunidades para el aprendizaje con calidad y el desarrollo humano sostenible de todas las personas que integran las comunidades educativas.

Una red que pretende, también, contribuir -desde su especificidad y marco conceptual- a la consolidación del enfoque competencial de los aprendizajes, facilitando, para ello, contextos reales y situaciones de interés para la promoción de valores, hábitos y estilos de vida saludables, así como contextos de formación al profesorado para el desarrollo de medidas de innovación educativa, a través de
